

VAC·CON

FAMILY OF VACUUM EXCAVATORS

www.vac-con.com

Vac•Con - A name synonymous with vacuum power - brings the same precision, performance and power in a comprehensive line of hydro-vacuum excavation units. Whether you are a municipal public works operator or a utility and construction contractor, there is a Vac-Con unit that will fit your application and exceed your expectations.

MUDSLINGER™

TRAILER OR SKID

Mudslinger MS

The Mudslinger MS is available in a 535 or 845-gallon debris tank on a tandem-axle trailer configuration. This unit is economical, portable and powerful - ideal for smaller job sites or budgets.

CHASSIS

Mudslinger MST

The Mudslinger MST is available in a 500 or 800-gallon debris tank on an F650 or larger chassis. Contractors will find this to be their ideal unit for quick set-up and tear-down to keep you on the road working.

CHASSIS

Mudslinger MXT

The Mudslinger MXT was designed off of a municipal specification and meets the needs of municipal customers across the globe. Available in a range of debris tank sizes and with various optional features, customize this unit to meet your needs.

XCAVATOR

CHASSIS

X-Cavator CXT

Our legacy hydrovac truck - the CXT - is a powerful, high-performance unit ideal for tough environments and jobs. The CXT is available in a range of debris and water tank capacities.

CHASSIS

X-Cavator EXT

The All-New X-Cavator EXT was designed for the operator. This unit is tough and made to take on the harshest environments and jobs. Features include an operator enclosure and heated compartments for water and electrical systems. Cold-weather operators need this unit. Enough said.

WITH THE PROVEN

MUDSLINGER™ MS

HYDROVAC TRAILER

MS800

ECONOMICAL POWER

The Mudslinger™ MS500 and MS800 trailer-mounted units are designed to provide operators with an economical, portable, and powerful system.

Built to function as a stand-alone unit or as a complement to additional equipment, the Mudslinger beats the competition in power and performance every time. Whether you're dealing with a small jobsite or budget, the Mudslinger is the hydrovac for you.

STANDARD FEATURES

- Tier 4 diesel and gas engine options
- 990 or 1,190 CFM/16"Hg PD Blower
- 4" Lil Hummer silencer
- Fully-enclosed power unit
- 535 or 845-gallon debris tank with hydraulic dump hoist and 55-degree dump angle
- Full open hydraulic dump door
- 4 GPM @ 4,000 PSI water pump
- 6-in. decant knife valve on rear door
- 225 or 325-gallon HDPE water tank
- Anti-freeze system
- 50-ft. x .375-in. hose for hydro-excavation
- 9-ft. boom with 24" hydraulic extension
- 4-in. - 16-in. boom hose
- Tooling rack

PICKUP THE SLACK

WITH THE ALL-NEW

MUDSLINGER™

MST500 & MST800

HYDROVAC TRUCKS

MST500

PORTABLE & POWERFUL

The All-New Mudslinger™ MST500 and MST800 chassis-mounted units are designed to provide operators with an economical, portable, and powerful system.

Built for today's ever-changing and demanding hydro-excavation requirements, the MST offers the high-performance of the Mudslinger trailer on a convenient chassis configuration - increasing operator flexibility and job efficiency.

STANDARD FEATURES

- F650 chassis or larger - Non-CDL
- MST500 - 535-gallon debris tank
- MST800 - 845-gallon debris tank
- 16-ft. x 4-inch boom hose
- Hydraulic dump hoist & 55° dump angle
- 49, 74, or 114 HP Kubota diesel engine with shutdowns **HP dependent on CFM selection*
- 909, 1,190 or 2,000 CFM/16" Hg PD blower
- 4-inch Lil Hummer Silencer
- Fully-enclosed power unit
- 30-gallon fuel tank
- 4 GPM @ 4,000 PSI water pump
- 225 or 325-gallon HDPE water tank
- 50-ft. of .375-inch hose for hydro-excavation

OPTIONAL FEATURES

- Reverse flow package
- Water recirculation
- Wireless remote
- 9-ft. boom with 24-in. hydraulic extension
- Power boom articulation
- 16-ft. x 6-in. boom hose
- Additional optional features available

EQUIP YOUR FLEET

WITH THE ALL-NEW

MUDSLINGER MXT

HYDROVAC TRUCKS

SIMPLE YET POWERFUL

The Mudslinger™ MXT is your answer for municipal fleet solutions. Derived from our military/municipal specifications, this unit is available in a range of options to take on the tasks of government departments.

The MXT is an economical, truck-mounted hydrovac machine. The simple design and configuration make it easy for operators of all skill levels without sacrificing power or performance known from Vac-Con units.

STANDARD FEATURES

- 3/16-inch Corten steel debris tank available from 3 to 16 cubic yards
- Fixed boom with 270-degrees of rotation and a 6-way pendant and joystick controls
- Boom travel tie down
- 50-ft. x 0.5-in. high-pressure hand gun hose on a retractable reel
- Full-opening rear door with hydraulic door locks and grabber
- 5-inch butterfly valve with 10-ft. layflat hose
- Debris tank dump at 50-degrees
- Polyethylene water tanks
- Automatic vacuum breaker and overflow protection
- 8-inch vacuum intake hose
- 20.5-ft. aluminum intake pipe
- Udor water pump - 11 GPM @ 2,200 PSI
- Sealed and locking tool box
- ICC lighting

OPTIONAL FEATURES

- Telescopic boom
- Hydraulic pump-off system
- Air purge system
- Rear splash shield
- Debris body power flush system, 8 jets
- Storage and tool boxes with lighting
- Safety lighting
- Remote control for boom, vacuum breaker, throttle, and debris body
- Vibrator
- Air compressor

BUILD YOUR LEGACY

WITH THE PROVEN
**XCAVATOR
CXT**

HYDROVAC TRUCK

PROVEN PERFORMANCE

The X-Cavator™ CXT is the legacy Vac-Con hydrovac. This unit was designed with the power and performance expected from Vac-Con machines with a focus on hydro-excavation applications.

Available in a range of configurations and sizes, the CXT is custom-built to meet your application - no matter how big or tough the job may be.

STANDARD FEATURES

- Available with positive displacement or 3-stage fan vacuum system
- Single engine hydrostatic blower drive
- Cyclone separator
- Front-loading 10-ft. telescopic boom with pendant control station and 270-degree boom rotation
- 8-inch vacuum intake hose
- Cross-linked polyethylene water tanks available in 800, 1,100, or 1,300-gallon capacities with 10-year warranty
- 20 GPM @ 4,000 PSI water pump
- 100-ft. retractable high-pressure hose reel and digging wand
- Hydraulically-driven scissor lift debris tank dumping with a min. 50-degree dump

OPTIONAL FEATURES

DEFEAT THE EXTREME

WITH THE ALL-NEW
**XCAVATOR
EXT**

HYDROVAC TRUCK

EXTREME POWER & PRECISION

The X-Cavator™ EXT is designed to take on the harshest environments into which operators venture. Contractors and municipalities alike will discover that the all-new EXT is built to exceed their demands.

The EXT offers non-destructive, efficient digging. High-pressure water and powerful vacuum allow operators to locate, dig, and excavate without disturbing the surrounding jobsite or underground utilities.

STANDARD FEATURES

- Robuschi 145 blower
- OMSI transfer case drive
- 28"Hg @ 6,176 CFM
- Corten steel debris tank available in a 12-yard capacity
- 50-degree dump body
- 1,500-gallon water tank capacity
- GIANT water pump 20 GPM @ 4,000 PSI
- Cold weather enclosure for insulated water system and components
- Operator enclosure with inverter and seating
- New lightweight, flexible boom design rotates 310-degrees horizontally and +45/-22 degrees vertically for greater digging depths

OPTIONAL FEATURES

- Contact us to learn about a range of optional features to customize your unit to any job site.

Customer Support & Service

Vac-Con is dedicated to providing the best in customer experience and machine maintenance. Our network of factory-trained dealers are available to provide you with local support, maintenance and parts needs.

For basic machine training, visit our online training portal at www.training.vac-con.com and contact your dealer for registration information.

Onsite training and parts ordering are available and can be coordinated with your dealership. For questions regarding customer support, service, and parts, contact us at:

904.284.4200 or vns@vac-con.com
